Intern Full-stack Developer (C#, JavaScript)

Join our growing team as **Intern Full-stack Developer** in our R&D center in Sofia to provide the best service to our customers. Discover multiple industry sectors (Aerospace & Defence, Automotive, Energy, Transportation, High-Tech, Life Science) and develop yourself.

As an international company, Inensia offers a stimulating and supporting working environment with friendly, social and open-minded people. You can now onboard and fully contribute to the expansion of our European delivery center in Sofia as an **Intern Developer** and work in the area of digital industry and product lifecycle management /PLM/.

Your Role:

- Understanding functional specifications describing the expected PLM solution;
- Designing and implementing specific customizations (front-end and back-end) and interfaces between information systems (i.e. PLM to ERP such as SAP);
- Implementing migration tools to load legacy data into PLM;
- Developing scripts to automate functional and non-regression testing.

Our Requirements:

- Graduated or in the process of graduating with a Bachelor's or master's degree in Technical Education such as Product Engineering (Mechanical, Electrical, Electronics, Automation, Industrial, Computer Aided Design) and Manufacturing;
- Knowledge in C#, JavaScript, SQL;
- Advanced English, both spoken and written;
- Sense of responsibility, autonomous, proactive, resourceful, and team player.

We offer:

- Competitive remuneration;
- Food vouchers;
- French classes;
- "Start-up" approach;
- Continuous training;
- Home office;
- International experience;
- Stimulating environment.
