

Production systems analyst /on site/

Latecoere is a top-tier supplier to the main aircraft manufacturers in two major fields: Aerostructures and Interconnection Systems. Latecoere designs and produces airplane doors, fuselage elements and interconnection systems for the main aircrafts programs. Intervening on the whole industrial process, it carries out design, development, manufacturing and installation work. Our design capacities, optimized industrial organization, management of the supply chain, and after sales service organization makes us one of the world's leading suppliers in the aviation industry.

Working at Latecoere means being part of a world-renowned aeronautics group, where taking the initiative and assuming responsibility are actively encouraged. Our success depends on that of our team members who work to achieve it. Our employees work on exciting and stimulating projects in the fields of Aerostructures and Interconnection systems, and are given every opportunity to develop their expertise. The Group's international footprint provides many opportunities for promotion and for mobility.

So, do you see yourself in the Group's core values: Boldness, Excellence and Commitment?

Are you keen to take on exciting challenges?
