

Career Opportunity at **LINKIN** – Shape the Future with Us, **Beyond Boundaries!** **Backend Developer**

Embark on a Journey with LINKIN

We are a pioneering industrial company dedicated to developing state-of-the-art Industrial IoT systems and gateways. Our systems integrate the latest technologies, including IIoT, SAP, Data Science, and Industry 4.0, to optimize and streamline manufacturing processes. Our mission is to integrate advanced technologies to enhance manufacturing processes and drive Industry 4.0 innovations.

Our legacy spans over three decades of pioneering growth and embracing the future. At LINKIN, we're not just leaders, we're revolutionaries redefining what's possible in our field. With a robust team of over 600 professionals, we merge traditional values with cutting-edge technology, propelling us beyond the industry's frontiers. Our success is powered by the diverse talents of our people, from industry veterans to the fresh perspectives of new talents. Together, we're not just crossing boundaries, we're charting new territories in excellence and innovation.

We're Crafting Careers, Not Just Jobs – Embrace the Challenge Beyond Boundaries

At LINKIN, we offer more than a job, we offer a pathway to distinction. We are committed to innovation and excellence. Join our dynamic team and contribute to the future of industrial automation.

We are in search of a **Backend Developer** who is not just looking for employment but is driven by a purpose, ready to push beyond boundaries with us.

About the Role:

We are seeking a talented **Backend Developer** with a knowledge of TypeScript/JavaScript. The ideal candidate will have a good understanding of AWS and CDK, as these are essential to our development and deployment processes. You will work closely with our team to further develop and maintain our state-of-the-art MES system.

Your Responsibilities – Navigate Beyond the Conventional:

- Develop and maintain robust and scalable software solutions using TypeScript/JavaScript.
- Collaborate with cross-functional teams to design, develop, and implement new features that optimize manufacturing processes.
- Utilize AWS Cloud Development Kit (CDK) or Serverless Application Model (SAM) to define and manage cloud resources, ensuring efficient and scalable deployments.
- Participate in code reviews, testing, and quality assurance processes to ensure the highest standards.
- Stay up-to-date with the latest industry trends and technologies to continuously improve our systems.

Ideal Candidate Profile – A Visionary Beyond Limits:

- 3+ years of experience as a Software Developer with a good foundation in TypeScript/JavaScript and a history of success in complex projects.
- Experience with AWS CDK or SAM for defining and managing cloud infrastructure.
- Excellent problem-solving skills and the ability to work in a fast-paced environment.
- Strong communication and teamwork abilities.

Preferred Qualifications:

- Experience with MES systems, industrial software development, or related fields
- Understanding of IIoT, SAP, Data Science, and Industry 4.0 technologies.

- Knowledge of DevOps principles and have experience with CI/CD pipelines.

What We Offer –Your Pathway to a Stellar Career:

- A Competitive Edge: Salaries that acknowledge your contribution.
- Innovative Projects: Opportunities to work on cutting-edge projects with the latest technologies.
- Growth and Recognition: Annual reviews that recognize your efforts, ensuring your growth is limitless.
- Benefits: Enjoy a comprehensive benefits package that includes additional health insurance, generous food vouchers, and an out of town transportation allowance , ensuring you're well taken care of professionally and personally.
- Collaborative Environment: A dynamic and supportive workplace.

Join LINKIN – Where Your Impact Knows No Bounds:

Dive into a role that elevates your talents, where your career is not just about advancement but about breaking new ground. Are you ready to join our story of innovation and excellence? Apply now and embark on a boundless journey with **LINKIN**.

All applications are treated with the highest degree of confidentiality. We will only contact candidates who are approved for the next stage.
